

Place your iPhone here

Front Camera

If the app does not recognize the paper:

1. Pick up the phone and place it again where marked and take off your iPhone's case
2. Watch the tutorial & troubleshooter in the app
3. Print another keyboard. Use 100% scale or 'actual / original' size setting. **Don't use fit or scale option!**

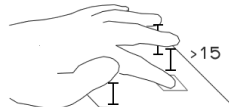

You can place a book or something here to steady the paper.
Do not cross this line, because the camera won't see the keys.

Calibration sign

Put a coin on these signs
if you have problems
with flattening the paper

Do not cross this line with your fingers, even in the air!

Keep ALL your inactive fingers always in the air at least 15 mm (0,6") high
